A Dictionary of Zoology (Oxford Quick Reference) By Michael Allaby

Michael Allaby has thoroughly revised this bestselling volume, offering the most authoritative and up-to-date zoology dictionary available today. Allaby covers all aspects of the study of animals in more than 5,250 clearly written entries--many new to this edition, including *alarm pheromone*, *Fick's laws*, *manometer*, and *synanthrope*. Illustrated with many line drawings, the book defines terms from animal behavior, evolution, earth history, zoogeography, genetics, and physiology, provides full taxonomic coverage of arthropods and other invertebrates, fish, reptiles, amphibians, birds, and mammals, and introduces new material on behavioral ecology and conservation biology. In many entries, he recommends web links, which are kept up to date through the *Dictionary of Zoology*'s companion website. Finally, the book includes detailed appendices covering the universal genetic code, endangered animals, the geologic time scale, and SI units. An invaluable dictionary for students of zoology and the related fields of biological and biomedical sciences, *A Dictionary of Zoology* is also ideal for amateur naturalists and anyone with an interest in animals.

Users Review

From reader reviews:

Jo Lee:

Now a day folks who Living in the era wherever everything reachable by match the internet and the resources inside can be true or not call for people to be aware of each information they get. How a lot more to be smart in receiving any information nowadays? Of course the answer is reading a book. Studying a book can help persons out of this uncertainty Information specifically this A Dictionary of Zoology (Oxford Quick Reference) book as this book offers you rich data and knowledge. Of course the data in this book hundred per cent guarantees there is no doubt in it everybody knows.

Lionel Gutierrez:

This A Dictionary of Zoology (Oxford Quick Reference) are generally reliable for you who want to be a successful person, why. The main reason of this A Dictionary of Zoology (Oxford Quick Reference) can be one of many great books you must have is giving you more than just simple studying food but feed you actually with information that perhaps will shock your preceding knowledge. This book is definitely handy, you can bring it everywhere you go and whenever your conditions at e-book and printed versions. Beside that this A Dictionary of Zoology (Oxford Quick Reference) forcing you to have an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we understand it useful in your day action. So , let's have it and revel in reading.

Bernice King:

Reading a book to become new life style in this year; every people loves to study a book. When you examine a book you can get a wide range of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your research, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, and soon.

The A Dictionary of Zoology (Oxford Quick Reference) will give you a new experience in looking at a book.

Shawn Clay:

As a pupil exactly feel bored for you to reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this A Dictionary of Zoology (Oxford Quick Reference) can make you experience more interested to read.
