### Arcadia: A Play By Tom Stoppard

*Arcadia* takes us back and forth between the nineteenth and twentieth centuries, ranging over the nature of truth and time, the difference between the Classical and the Romantic temperament, and the disruptive influence of sex on our orbits in life. Focusing on the mysteries?romantic, scientific, literary?that engage the minds and hearts of characters whose passions and lives intersect across scientific planes and centuries, it is "Stoppard's richest, most ravishing comedy to date, a play of wit, intellect, language, brio and . . . emotion. It's like a dream of levitation: you're instantaneously aloft, soaring, banking, doing loop-the-loops and then, when you think you're about to plummet to earth, swooping to a gentle touchdown of not easily described sweetness and sorrow . . . Exhilarating" (Vincent Canby, *The New York Times*).

### Editorial Review

#### Review

"There's no doubt about it. 'Arcadia' is Tom Stoppard's richest, most ravishing comedy to date, a play of wit, intellect, language, brio and ... emotion. It's like a dream of levitation: you're instantaneously aloft, soaring, banking, doing loop-the-loops and then, when you think you're about to plummet to earth, swooping to a gentle touchdown of not easily described sweetness and sorrow." *Vincent Canby, The New York Times*

#### From the Inside Flap

Tom Stoppard's *Arcadia* merges science with human concerns and ideals, examining the universe's influence in our everyday lives and ultimate fates through relationship between past and present, order and disorder and the certainty of knowledge. Set in an English country house in the year 1809-1812 and 1989, the play examines the lives of two modern scholars and the house's current residents with the lives of those who lived there 180 years earlier.

The *New York Times* calls *Arcadia*: "Tom Stoppard's richest, most ravishing comedy to date. A play of wit, intellect, language, brio and emotion," and The Royal Institution of Great Britain calls it: "the best science book ever written."

Includes an interview with Steven Strogatz, the author of *Nonlinear Dynamics and Chaos* and professor at the Cornell University School of Theoretical and Applied Mathematics.

An L.A. Theatre Works full-cast performance featuring: Kate Burton, Mark Capri, Jennifer Dundas, Gregory Itzin, David Manis, Christopher Neame, Peter Paige, Darren Richardson, Kate Steele, Serena Scott Thomas, Douglas Weston.

Directed by John Rubinstein. Recorded at the Invisible Studios, West Hollywood.

*Arcadia* is part of L.A. Theatre Works' Relativity Series featuring science-themed plays. Major funding for the Relativity Series is provided by the Alfred P. Sloan Foundation to enhance public understanding of science and technology in the modern world.

#### From the Back Cover

In a large country house in Derbyshire in April 1809 sit Lady Thomasina Coverly, aged thirteen, and her tutor, Septimus Hodge. Through the window may be seen some of the '500 acres inclusive of lake' where Capability Brown's idealized landscape is about to give way to the 'picturesque' Gothic style: 'everything but vampires', as the garden historian Hannah Jarvis remarks to Bernard Nightingale when they stand in the same room 180 years later.

Bernard has arrived to uncover the scandal which is said to have taken place when Lord Byron stayed at Sidley Park.

Tom Stoppard's absorbing play takes us back and forth between the centuries and explores the nature of truth and time, the difference between the Classical and the Romantic temperament, and the disruptive influence of sex on our orbits in life -- 'the attraction which Newton left out'.

## Users Review

### From reader reviews:

#### **Bonnie Mentzer:**

Have you spare time for the day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity with regard to spend your time.
