**Harm to Others (Moral Limits of the Criminal Law)** By Joel Feinberg

This first volume in the four-volume series *The Moral Limits of the Criminal Law* focuses on the "harm principle," the commonsense view that prevention of harm to persons other than the perpetrator is a legitimate purpose of criminal legislation. Feinberg presents a detailed analysis of the concept and definition of harm and applies it to a host of practical and theoretical issues, showing how the harm principle must be interpreted if it is to be a plausible guide to the lawmaker.

### Editorial Review

#### Review

"Joel Feinberg is a political and social philosopher of major importance....Virtually everyone who has written about legal and moral responsibility during the past fifteen years owes him a significant debt." --*Harvard Law Review*

"Illuminates and advances the discussion of all the issues it touches. It is certainly a major contribution that will require consideration for years to come." --*Law and Philosophy*

"Feinberg's treatment of these issues is probably as thorough, clear, and sophisticated as any that exist. The book is superbly and engagingly written and filled with good sense. It is illuminating not only of problems of philosophical analysis and normative theory, but also of more concrete policy issues....An extremely useful book. The four volumes together will doubtless comprise the most impressive treatment of their topic ever achieved." --*Philosophy and Phenomenological Research*

"An extremely useful book. Many important topics are discussed carefully, sensibly, and with erudition. The four volumes together will doubtless comprise the most impressive treatment of the topic ever achieved."--*Philosophy and Phenomenological Research*
