**Running Blind (Jack Reacher, Book 4) By Lee Child**

**Jack Reacher races to solve the perfect crime in the fourth novel in Lee Child's *New York Times* bestselling series.**

Across the country, women are being murdered, victims of a disciplined and clever killer who leaves no trace evidence, no fatal wounds, no signs of struggle, and no clues to an apparent motive. They are, truly, perfect crimes. In fact, there's only one thing that links the victims. Each one of the women knew Jack Reacher—and it's got him running blind.

### Editorial Review

#### Amazon.com Review

Jack Reacher is back, dragged into what looks like a series of grisly serial murders by a team of FBI profilers who aren't totally sure he's not the killer they're looking for, but believe that even if he isn't, he's smart enough to help them find the real killer. And what they've got on the ex-MP, who's starred in three previous Lee Child thrillers (*Tripwire*, *Die Trying*, *Killing Floor*), is enough to ensure his grudging cooperation: phony charges stemming from Reacher's inadvertent involvement in a protection shakedown and the threat of harm to the woman he loves.

The killer's victims have only one thing in common--all of them brought sexual harassment charges against their military superiors and all resigned from the army after winning their cases. The manner, if not the cause, of their deaths is gruesomely the same: they died in their own bathtubs, covered in gallons of camouflage paint, but they didn't drown and they weren't shot, strangled, poisoned, or attacked. Even the FBI forensic specialists can't figure out why they seem to have gone willingly to their mysterious deaths. Reacher isn't sure whether the killings are an elaborate cover-up for corruption involving stolen military hardware or the work of a maniac who's smart enough to leave absolutely no clues behind. This compelling, iconic antihero dead-ends in a lot of alleys before he finally figures it out, but every one is worth exploring and the suspense doesn't let up for a second. The ending will come as a complete surprise to even the most careful reader, and as Reacher strides off into the sunset, you'll wonder what's in store for him in his next adventure.

--Jane Adams

#### From Publishers Weekly

Jack Reacher, the wandering folk hero of Child's superb line of thrillers (*Tripwire*, etc.), faces a baffling puzzle in his latest adventure: who is the exceptionally crafty villain murdering women across the country, leaving the naked bodies in their bathtubs (which are filled with army camouflage green paint), escaping the scenes and leaving no trace of evidence? The corpses show no cause of death and Reacher's sole clue is that all the victims thus far were sexually harassed while serving in the military. There's got to be some sort of grand scheme behind the killings, but with no physical evidence, FBI agents bumble around until they finally question Reacher, a former military cop who handled each of the dead women's harassment cases. After Reacher convinces investigators he's innocent, theyAcuriouslyAask him to stay on as a case consultant. Reacher doesn't like the ideaAhe's too much of a lone wolfAbut he has little choice. The feds threaten him and his girlfriend, high-powered Manhattan attorney Jodie Jacob, with all sorts of legal entanglements if he doesn't help. So Reacher joins the FBI team and immediately attacks the feds' approach, which is based solely on profiling. Then he breaks out on his own, pursuing enigmatic theories and hunches that lead him to a showdown with a truly surprising killer in a tiny village outside Portland, Ore. Some of the concluding elements to Child's fourth Reacher outingAhow the killer gains access to the victims' homes, as well as the revelation of the elaborate MOAfall into place with disappointing convenience. Yet the book harbors two elements that separate it from the pack: a brain-teasing puzzle that gets put together piece by fascinating piece, and a central character with Robin Hood-like integrity and an engagingly eccentric approach to life.

#### From Library Journal

Child's Jack Reacher series has improved with each successive book, of which this is the fourth (following *Tripwire*). A serial murderer is on the loose, killing women across the country in the same bizarre fashion: there are no fatal wounds on the corpse and no evidence or clues. Other than the killer's unknown method, the only thread tying the victims together is that they have all served in the militaryDand they all knew

Reacher. What is the motive? What is the murder weapon and manner of death? How does the killer gain entrance to the heavily secured homes of these fearful and suspicious women? Why is each corpse immersed in a tub full of paint? Reacher, the archetypal loner/wanderer, seems more domesticated here, although he fights powerfully against it. With numerous plot twists and turns, Child puts Reacher through his paces brilliantly, arriving at an unusual solution. Highly recommended for all public libraries.
