### **Black Water: The Book of Fantastic Literature** By Alberto Manguel

This huge anthology offers a kaleidoscope of brilliant writing from the Magi of the imagination. Alberto Manguel has selected 72 fantastic tales from life on the edge of the twilight zone, with stories from Marguerite Yourcenar, Herman Hesse, Italo Calvino, Vladimir Nabokov, and many, many more. This is a collection of irresistible masterpieces, many of which have never before appeared in the English language. Fantastic literature Manguel writes in his introduction, makes use of our everyday world as a facade through which the undefinable appears, hinting at the half-forgotten dreams of our imagination. Unlike tales of fantasy, fantastic literature deals with what can be best defined as the impossible seeping into the possible, what Wallace Stevens calls black water breaking into reality. Fantastic literature never really explains everything, it thrives on surprise, on the unexpected logic that is born from its own rules.
