Ethics and Management in the Public Sector (Routledge Masters in Public Management) By Alan Lawton, Julie Rayner, Karin Lasthuizen

Grappling with ethical issues is a daily challenge for those working in organizations that deliver public services. Such services are delivered through an often bewildering range of agencies and amidst this constant change, there are fears that a public service ethos, a tradition of working in the public interest, becomes blurred.

Using extensive vignettes and case studies, *Ethics and Management in the Public Sector* illuminates the practical decisions made by public officials. The book takes a universal approach to ethics reflecting the world-wide impact of public service reforms and also includes discussions on how these reforms impact traditional values and principles of public services.

This easy-to-use textbook is a definitive guide for postgraduate students of public sector ethics, as well as students of public management and administration more generally.

Editorial Review

Review

'Public sector reform needs to move on from the narrow agenda of New Public Management, and this includes treating the question of public service 'ethics' as something more substantial than rhetoric. The authors of this important book provide substantial ideas and material that will be of value to those involved in that task.'

Colin Crouch, Professor Emeritus, University of Warwick, UK

'This accessible text is firmly grounded in ethical theory and current public management practice. Well chosen case vignettes allow the reader to apply principles and consider their universality. The inclusion of ethical dimensions of the delivery of public services through networks also makes this text relevant to private and voluntary sector audiences. '

Dr Gemma Donnelly-Cox, School of Business, Trinity College Dublin

About the Author

Professor Alan Lawton is Deputy Head of the School of Business and Economics at Monash University, Australia. Prior to joining Monash in 2011 he held professorial appointments at the universities of Hull and Teesside in the UK and VU University in Amsterdam.
