Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) By Elaine N. Marieb, Susan J. Mitchell, Lori A. Smith

Featuring extensive new instructor support materials for easier quizzing in the lab, this best-selling laboratory manual provides a wide variety of exercises and activities designed to meet the needs of any 2-semester anatomy & physiology laboratory course. Known for its thorough, clearly-written exercises, full-color art, and integrated tear-out review sheets, this lab manual gives students a complete hands-on laboratory and learning experience inside and outside of the lab. The new edition has been fully revised with even more accessible language and more than 50 new and improved cadaver and histology photos. It also features engaging new Group Challenge activities that encourage a more active learning experience in the lab.

Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) By Elaine N. Marieb, Susan J. Mitchell, Lori A. Smith Bibliography

- Sales Rank: #138365 in Books
- Brand: Marieb, Elaine Nicpon/ Mitchell, Susan J., Ph.D./ Smith, Lori A., Ph.D.
- Published on: 2013-02-17
- Ingredients: Example Ingredients
- Original language: English
- Number of items: 1
- Dimensions: 10.90" h x 1.20" w x 9.10" l, .0 pounds
- Binding: Spiral-bound
- 992 pages

Editorial Review

About the Author

For **Elaine N. Marieb**, taking the student's perspective into account has always been an integral part of her teaching style. Dr. Marieb began her teaching career at Springfield College, where she taught anatomy and physiology to physical education majors. She then joined the faculty of the Biological Science Division of Holyoke Community College in 1969 after receiving her Ph.D. in zoology from the University of Massachusetts at Amherst. While teaching at Holyoke Community College, where many of her students were pursuing nursing degrees, she developed a desire to better understand the relationship between the scientific study of the human body and the clinical aspects of the nursing practice. To that end, while continuing to teach full time, Dr. Marieb pursued her nursing education, which culminated in a Master of Science degree with a clinical specialization in gerontology from the University of Massachusetts. It is this experience that has informed the development of the unique perspective and accessibility for which her publications are known.

Dr. Marieb has partnered with Benjamin Cummings for over 30 years. Her first work was *Human Anatomy & Physiology Laboratory Manual (Cat Version)*, which came out in 1981. In the years since, several other lab manual versions and study guides, as well as the softcover *Essentials of Human Anatomy & Physiology* textbook, have hit the campus bookstores. This textbook, now in its Ninth edition, made its appearance in 1989 and is the latest expression of her commitment to the needs of students studying human anatomy and physiology.

Dr. Marieb has given generously to provide opportunities for students to further their education. She contributes to the New Directions, New Careers Program at Holyoke Community College by funding a staffed drop-in center and by providing several full-tuition scholarships each year for women who are returning to college after a hiatus or attending college for the first time and who would be unable to continue their studies without financial support. She funds the E. N. Marieb Science Research Awards at Mount Holyoke College, which promotes research by undergraduate science majors, and has underwritten renovation and updating of one of the biology labs in Clapp Laboratory at that college. Dr. Marieb also contributes to the University of Massachusetts at Amherst where she generously provided funding for reconstruction and instrumentation of a cutting-edge cytology research laboratory. Recognizing the severe national shortage of nursing faculty, she underwrites the Nursing Scholars of the Future Grant Program at the university.

In 1994, Dr. Marieb received the Benefactor Award from the National Council for Resource Development, American Association of Community Colleges, which recognizes her ongoing sponsorship of student scholarships, faculty teaching awards, and other academic contributions to Holyoke Community College. In May 2000, the science building at Holyoke Community College was named in her honor.

In January 2012, Florida Gulf Coast University named a new health professions facility "Dr. Elaine Nicpon Marieb Hall." With the help of Dr. Marieb's generous donation, this facility contains laboratories in the School of Nursing that simulate an operating room, intensive-care unit, a labor and delivery room, and general medical surgical suites. She has also established a scholarship endowment for non-traditional students in the health professions, and an endowment to enhance the activities of faculty, students, and staff within health professions to support education, research, and community outreach.

Dr. Marieb is an active member of the Human Anatomy and Physiology Society (HAPS) and the American Association for the Advancement of Science (AAAS). Additionally, while actively engaged as an author, Dr. Marieb serves as a consultant for the Benjamin Cummings *Interactive Physiology*® CD-ROM series.

When not involved in academic pursuits, Dr. Marieb is a world traveler and has vowed to visit every country on this planet. Shorter term, she serves on the scholarship committee of the Women's Resources Center and on the board of directors of several charitable institutions in Sarasota County. She is an enthusiastic supporter of the local arts and enjoys a competitive match of doubles tennis.

Susan J. Mitchell earned her Ph.D. in physiology from the University of Michigan. She studied the cellular basis of behavior before joining the faculty at Onondaga Community College where she is currently a professor in the Department of Biological Sciences. Her research in neurophysiology and training in physiology positioned her to write the original Nervous, Endocrine, and Digestive System modules in the *Interactive Physiology* 10-System Suite tutorial program. She has been honored with a NISOD Excellence Award for teaching, and been awarded several grants to develop technological resources for biology at OCC. Dr. Mitchell is a member of the American Physiological Society, National Association of Biology Teachers, National Science Teachers Association, and the Human Anatomy and Physiological Society (HAPS), where she is currently active on the Curriculum and Instruction Committee.

Lori A. Smith received her Ph.D. in Biochemistry from the University of California at Davis. Before discovering her passion for teaching, she worked as a research scientist and project leader in the medical diagnostics industry. In 1999, she joined the faculty at American River College in the Biology Department. Currently she teaches anatomy and physiology and microbiology to pre-nursing and mortuary science students at American River College. Starting in 2005, she began co-authoring Pearson's *PhysioEx: Laboratory Simulations in Physiology* and has continued to co-author several versions of the software and lab manual. Dr. Smith has been awarded "Instructor of the Year" by the American River College Associated Students for her commitment to serving students, and she is a member of the Human Anatomy and Physiology Society (HAPS) and the National Association of Biology Teachers (NABT).

Users Review

From reader reviews:

Charity Reulet:

The experience that you get from Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) will be the more deep you looking the information that hide in the words the more you get enthusiastic about reading it. It does not mean that this book is hard to know but Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) giving you enjoyment feeling of reading. The author conveys their point in a number of way that can be understood simply by anyone who read the idea because the author of this guide is well-known enough. This particular book also makes your vocabulary increase well. It is therefore easy to understand then can go with you, both in printed or e-book style are available. We propose you for having that Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) instantly.

Robert Cobb:

Reading a e-book can be one of a lot of task that everyone in the world adores. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a e-book will give you a lot of new information. When you read a guide you will get new information simply because book is one of various ways to share the information or perhaps their idea. Second, studying a book will make anyone more imaginative. When you examining a book especially fiction book the author will bring someone to imagine the story how the characters do it anything. Third, it is possible to share your knowledge to other individuals. When you read this Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition), you can tells your family, friends along with soon about yours book. Your knowledge can inspire the others, make them reading a publication.

Stephen Wilson:

Do you have something that you enjoy such as book? The book lovers usually prefer to decide on book like comic, small story and the biggest an example may be novel. Now, why not striving Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) that give your entertainment preference will be satisfied by reading this book. Reading routine all over the world can be said as the method for people to know world better then how they react to the world. It can't be claimed constantly that reading routine only for the geeky man or woman but for all of you who wants to become success person. So , for all of you who want to start reading through as your good habit, you may pick Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) become your starter.

Anne Corchado:

Is it anyone who having spare time and then spend it whole day by means of watching television programs or just lying down on the bed? Do you need something new? This Human Anatomy & Physiology Laboratory Manual, Cat Version (11th Edition) can be the response, oh how comes? A fresh book you know. You are therefore out of date, spending your extra time by reading in this fresh era is common not a geek activity. So what these guides have than the others?
