Conquer ServiceNow by getting to grips with the power behind the platform

About This Book

In Detail This book will help you to understand the fundamentals behind the ServiceNow platform. Throughout the book, we develop a simple example application that is designed to highlight the key capabilities of ServiceNow. In the initial chapters, we build our foundations, walking through the data model, exploring how to write effective code to implement business logic, and avoiding the pitfalls that come with flexibility and choice in client-side scripting. Then, we explore the Task table, a powerful kick-start to any application. To head off potential problems, we look at debugging and diagnosis techniques. And finally, we think about automation and orchestration? how ServiceNow can help control the rest of your IT environment. Packed with hints, tips, and examples, this book helps you to master ServiceNow quickly and efficiently.
