#### *Sociological Review*

"Thoughtful, thoroughly researched, well written, *Continental Philosophy* invites students and scholars to engage in a rich and interesting tradition."

#### *Teaching Philosophy*

"This second edition does more than introduce continental philosophy; it makes it interesting and intriguing."

#### **Philip Pettit, Princeton University**

"David West's interpretations of the major figures of continental philosophy are succinct and insightful. He reads continental philosophy as a reaction to Enlightenment rationalism and as a potential foundation for emancipatory politics. This edition includes a courageous critique of several important recent figures: Agamben, Žižek and Badiou. West provides an illuminating and thorough introduction to the continental tradition."

#### **William R. Schroeder, University of Illinois**
