Designing Web Interfaces: Principles and Patterns for Rich Interactions By Bill Scott, Theresa Neil

Want to learn how to create great user experiences on today's Web? In this book, UI experts Bill Scott and Theresa Neil present more than 75 design patterns for building web interfaces that provide rich interaction. Distilled from the authors' years of experience at Sabre, Yahoo!, and Netflix, these best practices are grouped into six key principles to help you take advantage of the web technologies available today. With an entire section devoted to each design principle, *Designing Web Interfaces* helps you:

- **Make It Direct**-Edit content in context with design patterns for In Page Editing, Drag & Drop, and Direct Selection
- **Keep It Lightweight**-Reduce the effort required to interact with a site by using In Context Tools to leave a "light footprint"
- **Stay on the Page**-Keep visitors on a page with overlays, inlays, dynamic content, and in-page flow patterns
- **Provide an Invitation**-Help visitors discover site features with invitations that cue them to the next level of interaction
- **Use Transitions**-Learn when, why, and how to use animations, cinematic effects, and other transitions
- **React Immediately**-Provide a rich experience by using lively responses such as Live Search, Live Suggest, Live Previews, and more

Designing Web Interfaces illustrates many patterns with examples from working websites. If you need to build or renovate a website to be truly interactive, this book gives you the principles for success.

Editorial Review

About the Author

Bill Scott is director of UI Engineering at Netflix in Los Gatos, CA, where he plies his interface engineering and design skills. Scott is the former Yahoo! Ajax evangelist and pattern curator for the Yahoo! Design Pattern Library.

He has a long and glamorous history in the IT world, due mostly to his unique understanding of both the technical and creative aspects of designing usable products. His ramblings and musings can be found at <http://www.looksgoodworkswell.com>.

Theresa Neil is a user experience consultant in Austin, Texas, where she designs rich applications for start-ups and Fortune500 companies.

Users Review

From reader reviews:

Richard Martinez:

What do you concentrate on book? It is just for students because they are still students or it for all people in the world, what the best subject for that? Only you can be answered for that concern above. Every person has different personality and hobby for every single other. Don't to be forced someone or something that they don't wish do that. You must know how great as well as important the book Designing Web Interfaces: Principles and Patterns for Rich Interactions. All type of book would you see on many sources. You can look for the internet sources or other social media.

Samuel Gorman:

What do you concerning book? It is not important with you? Or just adding material when you require something to explain what you problem? How about your extra time? Or are you busy individual? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have time? What did you do? Every individual has many questions above. They must answer that question because just their can do that. It said that about guide. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this particular Designing Web Interfaces: Principles and Patterns for Rich Interactions to read.

Claudia Chittum:

In this 21st centuries, people become competitive in each way. By being competitive currently, people have

do something to make all of them survives, being in the middle of the actual crowded place and notice by surrounding. One thing that oftentimes many people have underestimated it for a while is reading. Yeah, by reading a reserve your ability to survive boost then having chance to stand up than other is high. In your case who want to start reading a book, we give you this particular Designing Web Interfaces: Principles and Patterns for Rich Interactions book as starter and daily reading guide. Why, because this book is more than just a book.

Chester Brown:

People live in this new time of lifestyle always aim to and must have the spare time or they will get large amount of stress from both daily life and work. So , if we ask do people have spare time, we will say absolutely yes. People is human not just a robot. Then we request again, what kind of activity do you possess when the spare time coming to you actually of course your answer will unlimited right. Then do you ever try this one, reading publications. It can be your alternative inside spending your spare time, the particular book you have read will be Designing Web Interfaces: Principles and Patterns for Rich Interactions.
