Ebersole and Hess' Gerontological Nursing & Healthy Aging, 3e By Theris A. Touhy, Kathleen F. Jett

With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience.

- Focus on health and wellness establishes a positive perspective to aging.
- Careful attention to age, cultural, and gender differences are integrated throughout to help you understand these important considerations when caring for older adults.
- Healthy aging strategies maximize the healthiest behaviors of clients with dementia and their caregivers.
- Consistent chapter organization includes learning objectives, research, and study questions/activities to make information easy to find and use.
- Incorporates assessment guidelines throughout provide useful tools for practice.
- End-of-chapter activities and discussion questions help you expand your knowledge and understanding of the content.
- Resource lists provide you with additional means to explore ways to care for the older adult.
- Incorporates the core competencies identified by the AACN and the Hartford Foundation Institute for Geriatric Nursing.
- Healthy People 2010 boxes assist you in integrating knowledge about healthy aging considerations.
- Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects.
- Expanded sexuality-related content includes older adults living with AIDS and STDs.
- Genetics section reflects the emergence of the role of genetics in gerontological assessment.

Editorial Review

Review

"The text is also well supported with a variety of student and academic resources, which can be accessed through the publisher's website. Thus a particular strength of the book is that it can be used as the core component of a wide ranging and interactive learning experience. I consider this text valuable learning material for all nurses who work with older adults and I would particularly recommend it for undergraduate nursing students and postgraduate students specialising in the field." **Nurse Education in Practice, November 2009**

Users Review

From reader reviews:

Walter Chacon:
