## Facebook Effect: The Inside Story of the Company That Is Connecting the World By David Kirkpatrick

Today - six years after it was created in a Harvard dorm room - over 500 million people use Facebook regularly, in just about every country on earth. That a company this powerful and influential was started as a lark by a couple of 19-year-olds makes it a fascinating and surprising tale. That one of them, the visionary Mark Zuckerberg, had the maturity, strategic smarts and luck to keep his company ahead of its rivals anchors the tale. With exclusive inside access to all the company's leaders David Kirkpatrick tells of the vision, the tenacity, the refusal to compromise, and the vision Zuckerberg has to remake the internet. A brilliant and fascinating cast of characters created Facebook and Kirkpatrick has interviewed all of them. Never before have Zuckerberg and his closest colleagues told what really happened as they built their dynamo while eating fast food, staying up all night, and thumbing their noses at how things are usually done.

### Editorial Review

#### From Publishers Weekly

There's never been a Web site like Facebook: more than 350 million people have accounts, and if the growth rate continues, by 2013 every Internet user worldwide will have his or her own page. And no one's had more access to the inner workings of the phenomenon than Kirkpatrick, a senior tech writer at *Fortune* magazine. Written with the full cooperation of founder Mark Zuckerberg, the book follows the company from its genesis in a Harvard dorm room through its successes over Friendster and MySpace, the expansion of the user base, and Zuckerberg's refusal to sell. The author is at his best discussing the social implications of the site, from the changing notions of privacy to why and how people use Facebook—increasingly it's to come together around a common interest or cause (the eponymous Facebook Effect). Though significantly more informative, thoughtful, and credible than Ben Mezrich's *The Accidental Billionaires*, it may be hamstrung by its late entry; the furor over Facebook has more or less subsided, and potential readers are more likely to be using the site than to be reading about its origins. (*June*)

\*Starred Review\* The greatest measure of the appeal of a business narrative is its story-ability, that is, the ways in which the tale of a corporation's ups and downs grabs its readers. Such is the case with Fortune magazine journalist Kirkpatrick's look at Facebook and its growth. The reason? In part because its co-founder now CEO Mark Zuckerberg allowed almost unprecedented access to the author—not one but several times. The results seems to mirror Zuckerberg's insistence on an "open and transparent" dialogue with itself and with its customers. Starting from a 2003 Harvard campus Web site created to keep track of schoolmates, Facebook has grown in less than a decade to nearly a half billion users and multimillions in revenues, a growth trajectory credited to its C-suite's unwavering vision and its continual innovations—including News Feed, multiple applications, and self-service advertising. Talented people, too, add to the explosion that is Facebook; Kirkpatrick's pages are populated with names like Steve Ballmer, Lawrence Summers, Larry Brin, and lesser-known others who've contributed to this social networking phenomenon. Kirkpatrick also keeps his superlatives in check, weaving stories about Zuckerberg and his cadre while clearly showing the warts as well. An intriguing, almost participatory, read. --Barbara Jacobs

#### Review

"David Kirkpatrick was handed the keys to the Facebook kingdom - the result is the definitive account of its phenomenal rise" Observer "Leaves you with a deep understanding of Facebook, its philosophies and, most startlingly, its power. You come away with a creepy new awareness of how a directory of college students is fast becoming a directory of all humanity" Scotsman "A well-reported account of the first six years of one of the most important companies on earth" Financial Times "Mr. Kirkpatrick provides some intriguing insights into the psyche of Mr. Zuckerberg" The Economist "A compelling account of the origins and prospects of the social networking giant" The Week

### Users Review

#### From reader reviews:

**Deloras Pinkston:**

A lot of people always spent their particular free time to vacation or perhaps go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or maybe playing video games all day long.
