Handbook of Non-Ferrous Metal Powders: Technologies and Applications

By Oleg D Neikov, I. B. Murashova, Nicholas A. Yefimov, Stanislav Naboychenko

The manufacture and use of the powders of non-ferrous metals has been taking place for many years in what was previously Soviet Russia, and a huge amount of knowledge and experience has built up in that country over the last forty years or so. Although accounts of the topic have been published in the Russian language, no English language account has existed until now.

Six prominent academics and industrialists from the Ukraine and Russia have produced this highly-detailed account which covers the classification, manufacturing methods, treatment and properties of the non-ferrous metals (aluminium, titanium, magnesium, copper, nickel, cobalt, zinc, cadmium, lead, tin, bismuth, noble metals and earth metals).

The result is a formidable reference source for those in all aspects of the metal powder industry.

* Covers the manufacturing methods, properties and importance of the following metals: aluminium, titanium, magnesium, copper, nickel, cobalt, zinc, cadmium, noble metals, rare earth metals, lead, tin and bismuth.

* Expert Russian team of authors, all very experienced

* English translation and update of book previously published in Russian.

Editorial Review

Users Review

From reader reviews:

Danny Whittemore:

The book Handbook of Non-Ferrous Metal Powders: Technologies and Applications can give more knowledge and also the precise product information about everything you want. Why must we leave the best thing like a book Handbook of Non-Ferrous Metal Powders: Technologies and Applications? Several of you have a different opinion about e-book. But one aim that will book can give many details for us. It is absolutely proper. Right now, try to closer with your book. Knowledge or information that you take for that, it is possible to give for each other; it is possible to share all of these. Book Handbook of Non-Ferrous Metal Powders: Technologies and Applications has simple shape however you know: it has great and large function for you. You can seem the enormous world by open and read a e-book. So it is very wonderful.

Angela Gagne:

This Handbook of Non-Ferrous Metal Powders: Technologies and Applications are reliable for you who want to be considered a successful person, why. The main reason of this Handbook of Non-Ferrous Metal Powders: Technologies and Applications can be on the list of great books you must have is definitely giving you more than just simple looking at food but feed you with information that perhaps will shock your prior knowledge. This book will be handy, you can bring it almost everywhere and whenever your conditions in e-book and printed versions. Beside that this Handbook of Non-Ferrous Metal Powders: Technologies and Applications forcing you to have an enormous of experience like rich vocabulary, giving you trial run of critical thinking that we realize it useful in your day action. So , let's have it and enjoy reading.

Kelly Cruz:

Hey guys, do you wishes to finds a new book you just read? May be the book with the name Handbook of Non-Ferrous Metal Powders: Technologies and Applications suitable to you? Typically the book was written by famous writer in this era. The actual book untitled Handbook of Non-Ferrous Metal Powders: Technologies and Applications is a single of several books in which everyone read now. That book was inspired many people in the world. When you read this guide you will enter the new shape that you ever know ahead of. The author explained their concept in the simple way, so all of people can easily to comprehend the core of this book. This book will give you a lot of information about this world now. So you can see the represented of the world within this book.

Pandora Rice:
