The Structural Study of Myth and Totemism From Routledge

Designed to provoke controversy, the papers in this volume concentrate on two main themes: the study of myth and totemism. Starting with an English translation of *La Geste d'Asdiwal*, which is widely considered to be the most brilliant of all of Lévi-Strauss's shorter expositions of his technique of myth analysis, the volume also contains criticism of this essay. The second part of the volume discusses how far Lévi-Strauss's treatment of totemism as a system of category formation can be correlated with the facts that an ethnographer encounters in the field.

First published in 1967.
