Dictionary of Ancient Magic Words and Spells: From Abraxas to Zoar By Claude Lecouteux

A comprehensive handbook of more than 1,000 magical words, phrases, symbols, and secret alphabets

- Explains the origins, derivatives, and practical usage of each word, phrase, and spell as well as how they can be combined for custom spells
- Based on the magical traditions of Europe, Greece, and Egypt and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany
- Includes an in-depth exploration of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes

From *Abracadabra* to the now famous spells of the Harry Potter series, magic words are no longer confined to the practices of pagans, alchemists, witches, and occultists. They have become part of the popular imagination of the Western world. Passed down from ancient Babylon, Egypt, and Greece, these words and the rituals surrounding them have survived through the millennia because they work. And as scholar Claude Lecouteux reveals, often the more impenetrable they seem, the more effective they are.

Analyzing more than 7,000 spells from the magical traditions of Europe as well as the magical papyri of the Greeks and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany, Lecouteux has compiled a comprehensive dictionary of ancient magic words, phrases, and spells along with an in-depth exploration--the first in English--of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes. Drawing upon thousands of medieval accounts and famous manuscripts such as the *Heptameron* of Peter Abano, the author examines the origins of each word or spell, offering detailed instructions on their successful use, whether for protection, love, wealth, or healing. He charts their evolution and derivations through the centuries, showing, for example, how spells that were once intended to put out fires evolved to protect people from witchcraft. He reveals the inherent versatility of magic words and how each sorcerer or witch

had a set of stock phrases they would combine to build a custom spell for the magical need at hand.

Presenting a wealth of material on magical words, signs, and charms, both common and obscure, Lecouteux also explores the magical words and spells of ancient Scandinavia, the Hispano-Arabic magic of Spain before the Reconquista, the traditions passed down from ancient Egypt, and those that have stayed in use until the present day.

Editorial Review

Review

"Lecouteux has analyzed more than 7000 spells from numerous magical traditions. We find spells for protection, love, wealth and healing, with a charted evolution showing how a spell can morph down through the centuries. Presenting a wealth of material on magical words, signs and charms, Lecouteux also explores the magical words and spells of ancient Scandinavia, the Hispano-Arabic magic of Spain, the ancient Egyptian traditions and customs that have stayed in use until the present day." (*The Witches' Almanac*, March 2016)

"The anything-but-dry presentation by Lecouteux makes this book a must-add for someone curating careful resources for magic work. This belongs on a shelf between that favorite, oft-used herbal and that collection of favorite spells. The history, illustrations, and above all the words themselves beg for a reintroduction into living use--although, word of warning, few of them are actually rated as valid in Scrabble." (*Facing North*, Diana Rajchel, March 2016)

PRAEMBULUS

From Abracadabra to the Avada Kedavra and Rennervate used in *Harry Potter*, everyone has become familiar with magic words; but novels, films, and comic books can provide only a simplified, distorted version of them. Shouted, whispered, chanted, recited, or muttered by a magician, wizard, or witch--using singular and even incomprehensible words to obtain supernatural effects--these perpetually evolving spells come down to us from the dawn of time. Thanks to the efforts of the scholars from a variety of disciplines, we now have a corpus consisting of tens of thousands of accounts at our disposal that can be found in charms, orisons, blessings, conjurations, and medical prescriptions.

THE USEFUL NATURE OF THE SPELLS

One of the purposes of magical phrases and words was the protection of people and property. It involved the prevention of something from happening or halting an action already at work.

Then there are the spells intended to grant one's wishes. These range from desires for wealth--through the discovery of hidden treasures!--to catching fish, to winning the love of a person one lusts after. That the phrases may have been incomprehensible was of no importance as their use was based on an act of faith, relying first on the magic and authority of the text, then on the tradition. If they have been handed down, it is because they work, and the more impenetrable they seem, the more effective they are!

WRITING AND CODING

To write magic words or phrases, we are sometimes told it is necessary to use one's own blood or that of animals--the most often cited animals are bats, cats (preferably black ones), roosters, and dogs.

From Abraxas to Zoar

Ablanathanalba: A word that means "You are our father," endowed with magical properties and commonly used on Greek amulets and papyri. One on the collection of the National Library of France (n° 177) depicts an armed spirit with serpents for legs and a rooster's head over the palindrome Ablanathanalba on one side. On the opposite side there is a winged god standing on the back of a reclining lion with magical letters. This was all intended to protect the bearer from fear. A Greek papyrus or curse tablet dating from the second to fourth centuries places it at the top of a series of words arranged in a triangle that shrinks one letter every line: *ablanathanalba; aeëiouô; iaeôbaphrenemoun; ôuoiêea; akrammachamarei.*

It can also be found in a Greek charm for obtaining victory in the phrase ABLANATHANALBA AKRAMMACHAMARI PEPHNA PHO'ZA PHNEBENNOUNI NAACHTHIP...OUNORBA.

A Coptic amulet on papyrus that may date from the fourth century, found in Egypt, bears this phrase: AKRAMMAHAMARIAABLANAPHANALBAA. On a gem intended to inspire love, Ablanathanalba is written in a circle around the first name, Faustina. A curse tablet found in Cypress shows the compound ABLANATHANALBASISOPETRON. On a phylactery discovered in Germany that was intended to protect several people, we read:

OYDAEAGANFOZL . . . UNI Ia Ia Iai Sabaôth Adônai Ablanathanlba Akra[machari Semeseilam
Sêêngembarpharangês, io io io

PGM XXXIII, 1-25; XXXVI, 211-30; D. G. Martinez, *PMich 757: A Greek Love Charm from Egypt*, Ann Arbor: Univ. of Michigan Press, 1991; A. Mastrocinque, "Metamorfosi di Kronos su una gemma di Bologna." A. Mastrocinque (ed.) *Gemme gnostiche e cultura ellenistica*, Bologna, 2002, 118.

Abra: Word of a spell intended to provide protection against a dwarf who was believed to transmit illnesses. Abra Iesus, Alabra Iesus, Galabra Iesus. This phrase is preceded by the equally widespread thebal guttatim.

Berthouin-Mathieu, 155; Deonna, W., "Abra, Abraca. La croix talisman de Lausanne," *Geneva* 22 (1944), 115-37.

AB : RA : CA D.A: --B. R: A.: To chase away a cold fever, these words are written on a piece of bread that is then given to the patient to eat. The letters form the word Abracadabra!

Abracula/Abraculus: A word featured in a reductive phrase intended to cure fever. It should be written on a note to be worn around the neck. It appears in a wide variety of ways in the manuscripts.
