## **Editorial Review**

From the Back Cover

Many archers and bowhunters will be surprised to learn that a wooden bow, whose ancestry dates back thousands of years, will shoot an arrow as fast and as effectively as the most modern fiberglass-laminated bows. Never before have such detailed instructions been available for the home craftsman, with information on how to make fine bows and arrows from natural materials. The authors thoroughly explain every facet of the process, from choosing wood to applying finishes, making construction easy even for the first-time bowyer.

With combined experience totaling over a century, the authors have constructed thousands of bows. Now they reveal their secrets and techniques in The Traditional Bowyer's Bible series, four essential volumes filled with history, humor and practical advice

About the Author

**Jim Hamm**, one of the world's leading experts on traditional archery, has edited and contributed to the three earlier volumes in the *Traditional Bowyer's Bible* series, and is the author of *Bows and Arrows of the Native Americans*. He lives in Azle, Texas.
